Subject: RE: Hotel Intermediaries--Industry Proposal

I am concerned with the provisions of (1)c & d. ND law does not allow this type of business to indicate to the customer that "taxes are included" and to not separately itemize the sales tax portion of the invoice. Only the telecommunications industry can use their books and records to support the taxable portion when there is a lump-sum billing which includes nontaxable services. This law does not allow the including of sales tax in the sales price for this industry either.
